Compelled Compassion : Arthur L. Caplan : 9780896032248

He turns to alternatives to exclusionary policies that are more likely to ensure the birth of children with sound minds and bodies. Many chapters in this unique book also provide significant clinical information as well as conceptual analysis. The child, identified as Baby Doe by the news media, subsequently died.

Compelled Compassion : Arthur L. Caplan : 9780896032248

A Workshop to Teach Medical Students Communication Skills and Clinical Knowledge about End-of-Life Care. Innovative research--much of it based on neuroimaging results--suggests not only treatments for neural disorders but also the possibility of increasingly precise and effective ways to predict, modify, and control behavior.

Life

Geriatric Care Management Journal , 16 2 , Spring 2006. Journal of General Internal Medicine vol 19, pp.

Kinlaw Research

Also appearing in this same issue of NEJM, was the pathbreaking study, coauthored by A. The subsequent chapters dissect the causes of and solutions for improving her poor care. Kathy Kinlaw and Robert Levine for the Ethics Subcommittee of the Advisory Committee to the Director, Centers for Disease Control and Prevention.

Arthur L. Caplan books and biography

Ministry and Mission , Candler School of Theology, 14 2 , p. The following year, he published a related article in the New England Journal of Medicine. The topics presented and general conclusions are of major importance to the practitioners in this field, for they show, for the first time, a departure from the more traditional approaches of nutritional support in patients with life-threatening diseases.

Ethical Issues in the Pediatric Intensive Care Unit

Vol 301 18 , pp. After surveying the state of the art, the author grapples with these questions, contending that decisions ultimately will not be based on ethical and moral grounds -they will be fought out in the political arena by Robert H Blank Book 10 editions published between 1990 and 2010 in English and Undetermined and held by 509 WorldCat member libraries worldwide Examines the social context and current state of the art of reproductive technologies artificial insemination, in vitro fertilization, surrogate motherhood, sex preselection, prenatal diagnosis and explores the impact of this technological revolution by Janna C Merrick Book 12 editions published between 1993 and 2013 in English and held by 397 WorldCat member libraries worldwide Here is a comprehensive overview and analysis of issues concerning the maternal-fetal relationship, from abortion to surrogate motherhood.
