Moving and Accessing SAS Files between Hosts : When to Access a SAS File on a Remote Host

But, I was hoping for a better way to do this such as an indicator variable on the catalog's CONTENTS listing or some such facility.

Moving and Accessing SAS 9.2 Files: 9781599943220: Computer Science Books @ spaceneb.us.to

Below are the details- ERROR: The Java proxy is not responding. But this is not available in the 64-bit version, due to the architecture differences.

Error of compatibility

. It works similar to the ExcelXP tagset. Below are the details could you please have a look and let us know if something is missing.

Moving and Accessing SAS Files between Hosts : Host Types Supported According to SAS Release

This works well because SAS data sets are compatible between the 32-bit and 64-bit versions of SAS. Can I suggest that you post the question to , where others with similar experience might be able to help?
